

Struggling with International Customs Data Management?

Simplify Cross-Border Commerce with Intersoft powered by Hurricane.

Our Services

Data Enhancement

Our smart solutions seamlessly verify HS6 codes and product descriptions, providing status codes and the most likely export and import codes for each consignment. Experience hassle-free, compliant shipments every time.

Duty & Tax Calculator

Say goodbye to manual duty and tax calculations that slow down your business!

Our automated system accurately calculates duty and tax rates in the currency of the sending or destination country, ensuring a smooth and hassle-free customer experience every time.

Prohibited & Restricted Goods Screening

Navigate customs regulations with ease! Our automated system ensures compliance with every country's unique import regulations, so you can focus on delivering a seamless and enjoyable customer experience every time.

Why choose Intersoft

- ✓ Cost-effective international shipping solution
- ✓ Secure, reliable and scalable
- ✓ Easy to use and integrate
- ✓ Excellent support and guidance
